

New F0140 AuO models

Euroengel is happy to inform that its Coldtainer AuO (Autonomous Operation) range is now including all versions of the F0140 model.

The new F0140 AuO feature a 110Ah VRLA deep cycle battery positioned under the protective cover and a 15A IU0U battery charger.

An anti-rollover pallet base is included as standard, as well as a manually operated battery safety switch (that will become standard for all AuO units).

The 110Ah VRLA deep cycle battery can offer 18+ hours of autonomous operation, making the F0140 AuO the perfect solution for temperature controlled transport of perishable foodstuffs, pharmaceuticals, biologicals on board of standard vehicles.

Overall external dimensions of the F0140 AuO are 620 x 1000 x 800 (h) mm, the total weight (battery and battery charger included) is ab. 95 kg.

All models can be ordered with following article numbers and prices:

Article Nr.	Model name	Volume (Lt)	Temperature range	Battery	Battery charger	Euro Net EXW
817003/00	F0140/NDN	140	down to + 0°C	110Ah	15A	3.800,00
817003/02	F0140/NDH	140	from +30°C to +0°C	110Ah	15A	4.200,00
817003/01	F0140/FDN	140	down to -21°C	110Ah	15A	4.500,00
817003/03	F0140/FDH	140	from +30°C to -21°C	110Ah	15A	4.900,00
